

**Certificate of Recognition**  
**President Giovanni Comito**  
**Aguila Uno Resources**

This is to certify that **Giovanni Comito**, President of **Aguila Uno Resources**, is a visionary gold mining entrepreneur with over fifteen (15) years of distinguished leadership in gold and silver mining operations across North and Central America.

Mr. Comito's career is marked by an exceptional ability to develop efficient, profitable mining projects from the ground up — not only as a financier and strategist, but as a hands-on operator deeply involved in every stage of execution.

From **2011 to 2016**, he played a pivotal role in the Notre-Dame De Montauban project, where he successfully led the corporate reverse merger and strategic repositioning of DNA Precious Metals. His leadership paved the way for the spin-off of the company's assets into the Canadian market, forming DNA Canada, where he became both a Managing Partner and major investor. This achievement reflected his skill in aligning technical resources with corporate growth strategies to create lasting shareholder value.

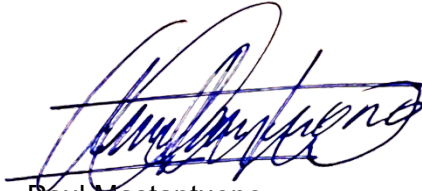

In 2017, Mr. Comito founded **Sociedad Aguila Dorada S.A. de C.V.**, a private gold and silver mining company in Honduras. Under his leadership, the project advanced from undeveloped land to a fully operational mining site, complete with in-house exploration, permitting, construction, and processing facilities. He continues to own and actively operate the company, ensuring sustainable production and strategic growth.

As President of **Aguila Uno Resources**, Mr. Comito brings the same philosophy of agility, pragmatism, and technical precision to a global platform. His deep operational involvement enables swift, informed decision-making, minimizes downtime, reduces costs, and drives production forward — ensuring that every stage of development, from trench to tailings, delivers long-term value.

**Career Milestones:**

- DNA Precious Metals / DNA Canada — 2011–2019
- Secova Metals Corp — 2019–2023
