

PROFESSIONAL PROFILE

Edgard Ramón Lozano Contreras

ID: 0801-1980-16568

Address: Residencial Altos de la Joya, Block G, House 8, Tegucigalpa City, Francisco Morazán Department

Phone: (504) 9865-3418

Email: elozano@ingmaconsultores.com

I am a highly qualified professional with over a decade of experience in the fields of mining, environment, and engineering. I hold a **Master's in Environmental Management and Audits** from the **European University of the Atlantic** and I am currently a **PhD Candidate in Projects with a focus on Environment** at the **International Iberoamerican University of Mexico**. Additionally, I hold an **Expert Degree in Mining and Environment** from the **European University Miguel de Cervantes** and a **Bachelor's in Agronomy** from the **National Agriculture University**.

My professional career has been marked by leadership roles, including **Chief of Mine** at **Compañía Minera del Sur, S.A.**, where I managed the operations of an underground gold mine for six years. I then served as **Environmental Manager and Mining Advisor** for **Águila Dorada, S.A.**, overseeing a gold ore beneficiation plant. Currently, I am the **Manager of INGMA CONSULTORES, S. de R.L.**, a consulting firm that has advised over 70 mining projects across Honduras, successfully managing category 4 environmental licenses and various engineering projects.

I have also worked as an independent consultant for organizations such as the **UNDP** and the **Ministry of Natural Resources and Environment**, developing studies focused on mercury trade, its reduction, and environmental assessments in artisanal and small-scale mining.

Education:

- PhD Candidate in Project Management with Environmental Focus – Universidad Internacional Iberoamericana, México
- Master's in Environmental Management and Audits – Universidad Europea del Atlántico
- Expert in Mining and Environment – Universidad Europea Miguel de Cervantes
- Agronomical Engineer – Universidad Nacional de Agricultura

Certificates:

- Mineral Deposit Evaluation – CAMIPER, Perú
- Environmental Impact Assessment – Catholic University of Honduras
- Geographic Information Systems – Universidad Politécnica de Ingeniería, Honduras

Professional Experience:

1. **Mine Manager**, Compañía Minera del Sur, S.A. (2012-2018)
Managed operations at an underground gold mine located in Guajiniquil, El Corpus, Choluteca.
2. **Environmental Manager and Mining Advisor**, Águila Dorada, S.A. (2019-2023)
Oversaw gold mineral processing plant operations, employing the Merrell Crow method and cyanidation.
3. **General Manager**, INGMA CONSULTORES, S. de R.L. (2012 - Present)
Led consultancy services in over 70 mining projects nationwide, securing

environmental licenses for mining projects, residential developments, fuel terminals, and more.

Key Consultancy Projects:

- "Study on Mercury Trade and Transfer in three ASGM areas in Honduras"
- "Strategy to Reduce Mercury Use in ASGM in Honduras"
- "Characterization of Three ASGM Municipalities in Honduras" – ARM of Colombia
- **National Expert on ASGM Mining** – PlanetGOLD Project, UNDP
